ARYO RISTIAWAN MACHFUDZ

Bogor, Indonesia | +6283870911774 | machfudzaryo@gmail.com | linkedin.com/aryomachfudz

Professional Summary

Third-year Software Engineering student at IPB University with a 3.83/4.00 GPA, specializing in Full-Stack Web Development, System Analyst, and API Architecture. Experienced in React, Next.js, Laravel, Node.js, Express.js, database design, and payment gateway integration. Proven track record of delivering end-to-end digital solutions, including custom CMS platforms, automated dispatch systems, and scalable event ticketing ecosystems. Fast learner adept at bridging business requirements with clean, high-performance code.

Professional Experience

Matra Hillindo - **Bogor, Indonesia** Jun 2023 - Dec 2023

Front-end Developer & IT Support Intern

- Developed 15+ responsive front-end website templates integrated with RESTful APIs, accelerating client onboarding speed by 25%.
- Assisted with backend configuration and tested application functionality to identify issues.
- Developed an automated invitation forwarding module leveraging WhatsApp API to auto-fill dynamic guest names, reducing manual messaging efforts and improving invitation delivery speed.
- Supported network installation and setup for internal and external IT and application operations.

Education Level

IPB University - **Bogor, Indonesia** Aug 2024 - Jun 2028 (Expected)

GPA: 3.83/4.00

Relevant Coursework: Data Structures & Algorithms, Database Systems & Architecture, Web & Mobile Application Development, Software Engineering Principles, Software Quality Assurance, AR Systems.

Organizational Experience

Google Developer Group on Campus - **Bogor, Indonesia** Oct 2026 - Present

Technical Core Team

- Spearheaded the Software Development learning path, delivering hands-on Study Jam workshops covering Frontend, Backend, RESTful APIs, Git, and Cloud technologies.
- Mentored aspiring software engineers (Hacker Track) in the GDGoC Catalyst bootcamp via live coding, system design guidance, and detailed code reviews for capstone applications.
- Engineered technical assessment rubrics and code evaluation criteria for the Tech League national software competition.

IT Festival 2025 Micro IT IPB - **Bogor, Indonesia** Feb 2025 - Sep 2025

Vice Head of Competition

- Authored the official competition guidebook and facilitated technical briefing sessions for 150+ participating teams, ensuring full alignment on rules, criteria, and competition workflows.
- Identified, contacted, and onboarded 10+ industry experts and academic professionals to serve as mentors and judges for the competition.
- Served as a dedicated Liaison Officer for 2 finalist teams, managing end-to-end communication, scheduling, and logistical support throughout the final evaluation stage.
- Initiated outreach and secured strategic community partnerships to broaden event publicity, audience reach, and cross-promotional engagement.
- Designed and managed the participant registration workflow, streamlining data collection and verification for all competing teams.

Projects

Point of Sale System for an Ice Cream Shop - Livingroom 2026

Full-stack Developer & System Analyst

- Conducted client requirements analysis to digitize manual cashier logs, eliminating human logging errors and streamlining store operations.
- Designed relational database schemas and RESTful API endpoints using Node.js, Express.js, and Prisma ORM for reliable transaction tracking.
- Built an interactive admin dashboard featuring sales visualization charts (Chart.js), empowering management to make data-driven inventory decisions.

TIGO (Ticket on the Go) - IPB University 2026

Full-Stack & Mobile Developer

- Architected an end-to-end event ticketing ecosystem comprising an event organizer web dashboard and a cross-platform Flutter mobile application.
- Structured NoSQL MongoDB database schemas and built Laravel RESTful APIs with Google OAuth and Cloudinary integration for scalable media management.
- Integrated Xendit payment gateway with real-time webhook listeners to process ticket transactions and automated ledger updates instantly.
- Developed a camera-based QR code scanner in Flutter with Role-Based Access Control (RBAC), enabling event staff to process attendee check-ins in under 2 seconds.

Company Profile & CMS Website - PT Bahtera Khatulistiwa Shipping 2026

Product Developer

- Modernized the corporate web platform by transitioning a legacy static site into a dynamic web application powered by a custom CMS.
- Designed and implemented responsive, modern UI components using Next.js and Tailwind CSS, improving site loading speed and digital brand positioning.
- Built an intuitive back-office CMS dashboard empowering non-technical internal teams to manage and publish corporate content 70% faster.
- Developed secure Express.js RESTful APIs and managed cloud deployment on Vercel, achieving 99.9% uptime and optimal system performance.

Trip & Driver Management Application - PT KJHMS 2025

Frontend Developer

- Built an automated receipt screenshot upload interface for drivers, streamlining daily trip (ritase) data collection and cutting manual submission time by 60%.
- Engineered direct web-to-printer integration on the admin dashboard, enabling instant auto-printing and digital archiving of Surat Izin Jalan (SIJ) upon verification.
- Developed interactive reporting dashboards using Next.js to monitor real-time driver trip counts, delivery logs, and performance metrics.
- Integrated dynamic frontend form handling to process and display OCR-extracted metadata from uploaded receipts with high precision.

Skills & Achievements

- **Soft Skills:** Project & High-Peak Workload Management, Attention to Detail, Fast Learner, Problem Solving, Collaboration, and Adaptibility
- **Programming & Frameworks:** JavaScript, TypeScript, PHP, Python, Next.js, React, Laravel, Node.js, Express.js, Flutter, Tailwind CSS, Mantine UI, Shadcn UI.
- **Databases & Tools:** PostgreSQL, MySQL, MongoDB, Prisma ORM, Postman, Git, Vercel, RESTful APIs, Payment Gateways (Xendit).
- **Achievement (2025):** 1st Winner at Prisma Fest Web Design Competition (UIN Sunan Ampel Surabaya)
